

Pursuant to Article 38, paragraph 1 of the Law on the Planning System of the Republic of Serbia (“Official Gazette of the Republic of Serbia”, No. 30/18),

the Government hereby adopts the following

**ACTION PLAN**  
**FOR THE PERIOD FROM 2023 TO 2025 FOR IMPLEMENTATION OF THE**  
**YOUTH STRATEGY IN THE REPUBLIC OF SERBIA**  
**FOR THE PERIOD FROM 2023 TO 2030**

**I. Introduction**

The Youth Strategy in the Republic of Serbia for the period from 2023 to 2030 (hereinafter referred to as: the Strategy) was adopted by the Government on 26 January 2023. With the adoption of the Strategy, the continuity of the systematic regulation of the subject area was continued, given that the previously valid “umbrella” document – the National Youth Strategy for the period from 2015 to 2025,<sup>1</sup> established the basic principles, directions and expected results of the actions of all subjects of youth policies towards improving the social position of young people and creating conditions for exercising the rights and interests of young people in all areas. Bearing in mind that during the period of validity of the previous strategy, i.e., in 2018, the Law on the Planning System of the Republic of Serbia<sup>2</sup> was adopted, which comprehensively regulated the way of managing public policies and the drafting and adoption of public policy documents such as strategies and action plans, as well as that the Action Plan for the implementation of the then valid National Strategy for Youth for the period from 2018 to 2020<sup>3</sup> expired. In 2020, a decision was made to begin drafting a new Strategy, which is fully compliant with the current legal framework governing the planning system in the Republic of Serbia. The Ministry of Tourism and Youth (hereinafter referred to as: the Ministry) made a decision to use the option prescribed by Article 18, paragraph 3 of the Law on the Planning System, to develop and adopt an Action Plan no later than 90 days from the date of adoption of the Strategy (which is specified in part 10 of the Strategy).

The Action Plan, as a public policy document, operationalises the general and special goals set by the Strategy, defines priorities regarding the timing of the implementation of specific measures and activities, and specifies the necessary financial resources for their implementation and funding sources. Therefore, the adoption of the Action Plan is a prerequisite for achieving the general and special goals defined by the Strategy.

## II. A brief overview of the achieved results of youth policy

Before making the decision on the development of the new Strategy, the Ministry conducted an *ex-post* analysis of the National Youth Strategy for the period from 2015 to 2025 and the accompanying action plans. As part of the *ex-post* analysis of the National Youth Strategy, it was concluded that the National Youth Strategy was completely relevant at the time of its adoption, but that in the first five years of its implementation, a number of important normative and strategic documents were adopted, which need to be harmonised. It was also assessed that all indicators indicate that young people are still one of the most vulnerable groups in the Republic of Serbia, and that it is necessary to react with additional work to improve their status, primarily through a new strategic document.

The results of the conducted focus groups showed that the defined strategic goals were partially achieved, although the Ministry made great efforts to fully achieve the goals. The conclusions from the focus groups also showed that:

- For the full implementation of the National Youth Strategy, it was necessary to provide significant financial resources;
- Intersectoral cooperation is insufficiently developed, and in order to improve intersectoral cooperation – it is necessary to ensure quality exchange of information;
- The action plans for the implementation of the National Youth Strategy did not contain defined target values of the indicators, and for a large number of indicators there was a lack of data for adequate monitoring.

Overall, the final conclusion of the *ex-post* analysis of the National Youth Strategy showed that the total achievement of nine strategic goals was 67.1%. In certain segments, a positive growth trend of key indicators was observed, such as: reduction of youth unemployment rate and NEET youth rate, while it should be borne in mind that it is not possible to estimate how much the implementation of the National Youth Strategy alone contributed to such results, considering that these indicators are influenced by several different factors. The analysis confirmed that there are significant challenges in the process of transition from education to the world of work, as well as in exercising the right to decent work and involvement in the decision-making process at all levels of government. In addition, it should be stressed that the COVID-19 pandemic further complicated the process of implementing the National Youth Strategy and achieving the desired effects.

The analysis also showed that it is necessary to further develop the capacities of youth policy subjects and strengthen the established mechanisms of intersectoral cooperation. In accordance with all the above conclusions, six key recommendations were identified:

- Carrying out a comprehensive revision of the National Youth Strategy or starting the procedure for the development of a new Strategy;
- Improvement of the data collection system, monitoring of achieved results - results of measures, results of special goals and effects of the general goal, evaluation and reporting to the public about what has been achieved;
- Defining the priorities and scope of activities, in accordance with the real resources and capacities of all youth policy entities;

- Providing support systems and mechanisms that will strengthen the capacities of all youth policy subjects at the local, regional and national level for the creation, implementation and monitoring of youth policy measures;
- Improvement of intersectoral cooperation at all levels;
- Developing support measures and activities for young people, especially young people from vulnerable groups, bearing in mind the impact and consequences of the COVID-19 pandemic.

### **III. Action Plan Development Methodology**

The Ministry, after the 17<sup>th</sup> session of the Youth Council held on 17 June 2021, adopted the Information on the start of the revision procedure of the National Youth Strategy. However, after the implementation of the Action Plan for the period from 2018 to 2020 was completed in 2020, and after reviewing the conclusions of the *ex-post* analysis of the National Youth Strategy, it was concluded that the adoption of a new action plan based on the then valid strategy – would not be expedient. It was estimated that the development and adoption of a new strategy and accompanying action plan would lead to a better application of the principles of public policy management such as youth policy, adaptation to the dynamic development of the youth sector, and improvement of the performance of youth policy. This conclusion was also based on the analysis of options for achieving the goals, whereby three possible options were analysed at that time (the options are presented in detail within the Strategy):

1. *Status quo* option – continue implementing the National Youth Strategy;
2. Restatement of the National Youth Strategy;
3. Development of a new strategy for the period from 2022 to 2030.

After the comparison of possible options was carried out, the drafting of the Strategy was started, which was adopted at the beginning of 2023, and then the drafting of the Action Plan for the period from 2023 to 2025 for the implementation of the Strategy (hereinafter referred to as: Action Plan). The Ministry made a decision to draft and adopt the Action Plan within the deadlines prescribed by Article 18, paragraph 3 of the Law on the Planning System of the Republic of Serbia. The Action Plan will enable effective, coherent and expedient planning of resources (human, material, financial (including financial resources from the budget, donor funds) and others) for the implementation of activities planned by the new Action Plan, thereby contributing to the achievement of general and specific goals and measures outlined in the Strategy in the observed period. Special emphasis in the new Action Plan is placed on activities that will improve the performance of responsible institutions in the field of planning and implementation of youth policy, and enable the monitoring of achieved results and quality reporting on what has been achieved, as well as effective planning in the future, especially until the end of the period Strategy, which is the year 2030.

The first version of the Action Plan was prepared as follows:

- In a methodological sense, the starting point for the development of the new Action Plan for the period from 2023 to 2025 was the Law on the Planning System of the Republic of Serbia and the accompanying by-laws: Decree on the methodology of public policy management, analysis of the effects of public policies and regulations,

and the content of individual documents public policies<sup>4</sup> and the Decree on the methodology for the development of medium-term plans.<sup>5</sup> The application of these regulations ensured the quality of the new Action Plan in terms of methodology and content, and its compliance with the Strategy as the umbrella document of youth policy. Specifically, the drafting of the new Action Plan started from the elements already outlined in the Strategy – general goal and related indicators, special goals and related indicators, and measures and their indicators;

- The starting point was the description of the current situation in the Strategy, in order to identify all possible needs of young people and, based on that, to design appropriate activities;
- When planning activities in the new Action Plan, the results and conclusions of the *ex-post* analysis of the previous strategy and accompanying action plans were taken into account;
- Activities are designed so that they directly contribute to the implementation of the measures outlined in the Strategy, and thus also the special goals and the general goal of the Strategy;
- During the preparation of the Action Plan, it was noticed that several indicators at the level of special goals and measures were not formulated in the most adequate possible way. Therefore, the Ministry will consider the possibility of creating an “indicator passport” in the coming period, without changing the elements outlined in the Strategy, in order to avoid possible confusion when calculating the initial and target values of the indicators, and with the aim of enabling adequate monitoring of the implementation of the Action Plan and Strategy, evaluation of the achieved results and reporting on what has been achieved;
- In accordance with the Strategy, the Ministry was determined and given as the institution responsible for coordination and reporting on the implementation of all special goals in the Action Plan. Also, when it comes to the institution responsible for the implementation of the individual measure proposed by the Action Plan, that is, the holder of the measure, for each of the measures, the body designated by the Strategy as the institution responsible for the implementation (coordination of the implementation) of the specific measure is proposed. As a body that implements an individual activity, the one that will be the main holder of a specific activity is determined, while the bodies are partners in the implementation of the activity – all those bodies, organisations and institutions that will participate in the implementation of specific activities. When it comes to the holders of the activities and partners in the implementation of the activities, there are small deviations in relation to the authorities, organisations and institutions that are foreseen in the Strategy. However, it should be borne in mind that these deviations arose during the process of developing the Action Plan, and in cooperation, and based on consultations with these bodies, organisations and institutions. Namely, on the basis of a better understanding of the competences and capacities of these bodies, organisations and institutions during the consultations and cooperation during the preparation of the Action Plan, a final decision was made on

---

<sup>4</sup> “Official Gazette of the Republic of Serbia”, No. 8/19.

<sup>5</sup> “Official Gazette of the Republic of Serbia”, No. 8/19.

which bodies should be the holders of the activities, and which bodies, organisations and institutions should be partners in the implementation of activities;

- According to the Law on Territorial Organisation of the Republic of Serbia,<sup>6</sup> the state territory of the Republic of Serbia consists of 199 cities, municipalities and urban municipalities, including the Autonomous Province of Kosovo and Metohija. In addition to cities and municipalities, urban municipalities should also be taken into account when calculating the value of indicators related to LSGUs (for example, the share of LSGUs that provide integrated services for youth, the number of LSGUs that have established YOs, the percentage of LSGUs that have established a youth council, etc.), because they do not have LSGU status, but some of them provide integrated youth services, and/or have established YOs and/or youth councils. Therefore, indicators related to LSGUs will be calculated by comparing the number of LSGUs (cities and municipalities) and city municipalities (which, for example, provide integrated services for youth, have established YO or a youth council, etc.
- Integrated services for the youth, as defined by the Strategy, are (cross-sectoral) services, i.e., activities for youth that are jointly implemented by organisations that practice youth work and deal with young people and institutions, as a systemic solution to a specific problem or need of young people in the local community, which is recognised by young people, organisations and institutions or the local community. They are implemented in cooperation between organisations and institutions, and are established for a long period of time, with both parties participating in their creation, implementation, monitoring, evaluation and adaptation to changing conditions over time. As such, integrated services are supported by LSGUs and financed from the city/municipal budget;
- The term “vulnerable groups” refers to those population groups that are at greater risk of social exclusion and poverty: people with disabilities, children, young people, women, the elderly, Roma men and women, the LGBTI community, uneducated people, the unemployed, refugees and internally displaced persons, persons and population living in rural areas<sup>7</sup>;
- The term youth at risk of poverty or social exclusion means youth who are at risk of poverty, or are severely materially deprived, or live in households with very low work intensity, as defined by the Income and Living Conditions Survey<sup>8</sup>.

The proposal of the Action Plan that follows is the result of the dedicated work of the Working Group, support in terms of methodology and content from experts engaged with the help of the United Nations Population Fund (UNFPA), information and data, insights and proposals collected during a series of consultative meetings with active civil society organisations that

<sup>8</sup> Survey on Income and Living Conditions, i.e., SILC

deal with youth policy and suggestions and comments collected during public consultations with the general public.

Namely, in February 2023, a Working Group was formed for the development of the Action Plan for the implementation of the Youth Strategy for the period from 2023 to 2025, composed of representatives of the competent and other relevant ministries, special organisations from the “centre of the Government” in charge of the legislative process and management public policies, other professional institutions and organisations relevant to youth policy, and active civil society organisations dealing with youth policy. At the Working Group meeting held in March 2023, the first version of the Action Plan for the period from 2023 to 2025 was presented and all relevant issues of the Working Group representatives were discussed. Members of the Working Group were given the opportunity to comment on this version of the Action Plan orally and in writing, which most of the Working Group members did. After that, another meeting was held with the members of the Working Group, where, in addition to representatives of the Ministry and UNFPA experts, there were also representatives of associations and associations of youth and for young people who are members of the Working Group, all in order to jointly, and in the best interest of young people, reach the best solutions when it comes to the various elements of the proposed Action Plan with a focus on the definitions of activities. Finally, in the period from 31 March to 10 April 2023, the Ministry organised public consultations on the Draft Action Plan, by publishing the Draft Action Plan on its website and the eConsultations portal, and invited representatives of state bodies and organisations, business entities, business associations, professional public, international civil society organisations and other interested parties, to give their proposals, comments and suggestions on the Draft Action Plan, via email of the Ministry, in the provided form that was published together with the Draft Action Plan. During the public consultation, almost 100 comments and suggestions were received from a total of nine interested parties. The Ministry thoroughly considered all the received comments, proposals and suggestions and based on that, prepared the Public Consultation Report, as an attachment to this Action Plan Proposal. The report on the conducted public consultations lists all received proposals, comments and suggestions and their proponents, as well as whether and which proposals and suggestions were accepted, and which were partially accepted or not accepted and for what reasons. This report will also be published on the Ministry's website, as well as on the eConsultations portal.

#### **IV. Structure of the Action Plan**

The action plan, by its structure, follows the general goal of the Strategy: Improved quality of life of young people and five specific goals:

- Specific objective 1: Youth work is standardised in the system of non-formal education and is continuously implemented
- Specific objective 2: Spatial capacities and services for the implementation of youth policy have been improved and functional in all local governments

- Specific objective 3: Young people are active participants in society at all levels
- Specific objective 4: Young people have equal opportunities and incentives to develop their potentials and competencies, which lead to social and economic independence
- Specific objective 5: Created conditions for a healthy and safe environment and social well-being of young people

## **V. Assessment of financial resources**

The assessment of financial resources necessary for the implementation of special goals, measures and activities was carried out by the Ministry as the proposer of the new Action Plan and the bearers of individual activities from the Action Plan, in accordance with planning and budget procedures. In this sense, all holders of individual activities from the Action Plan Proposal carried out a rough preliminary assessment of the costs of engaging human and other resources required for the implementation of the planned activities, which are planned by the Law on the Budget of the Republic of Serbia for 2023,<sup>9</sup> and in accordance with the Rulebook on the Method of Reporting and reporting on the estimated financial effects of the law, other regulation or other act on the budget, i.e., financial plans of organisations for mandatory social insurance.<sup>10</sup>

The funds were planned within the division of the competent Ministry and other ministries, i.e., state authorities that are the bearers of individual activities from this action plan, as well as from other sources, in accordance with positive legal regulations, with the planned contribution of EU funds, the participation of the private sector, associations which implement youth activities and other national and international programmes and donors. The total funds provided under the mentioned programmes will also include funds for the implementation of individual activities from this action plan, expressed by specific individual activities, which are grouped within certain types of measures. The funds needed for the implementation of the activities in the following years will be provided within the limits set by the authorities responsible for their implementation and in accordance with the balance possibilities of the budget of the Republic of Serbia, that is, within the set total level of expenditures and expenditures of the budget of the Republic of Serbia for each year.

The funds planned for the implementation of the Action Plan for the period from 2023 to 2025 amount to RSD 10,648,263,494.00.

In 2023, as the first year of implementation of the Action Plan, funds in the amount of RSD 3,201,116,142.00 is planned, namely: the Ministry of Tourism and Youth in the amount of RSD 526,870,000.00; Ministries for the care of the countryside in the amount of RSD 500,000,000.00; Ministry of Science, Technological Development and Innovation in the amount of RSD 957,000,000.00; Ministry of Culture in the amount of RSD 26,343,000.00; Ministry of Economy in the amount of RSD 913,279,000.00; Ministry of Environmental Protection in the amount of RSD 8,000,000.00; Ministry of Information and

---

<sup>10</sup> “Official Gazette of the Republic of Serbia”, No. 32/15

Telecommunications in the amount of RSD 8,000,000.00; other holders and partners in the amount of RSD 261,624,142.00.

## **VI. Monitoring the implementation of the Action Plan**

The Ministry of Tourism and Youth is responsible for monitoring the implementation of the Action Plan.

Also, the monitoring of the implementation of the Action Plan will be enabled by the Unified Information System for planning, monitoring implementation, coordination of public policies, which will include the content of the Action Plan and through which its implementation will be monitored, and report on the effects of the implementation of the Action Plan, in accordance with Article 47 of the Law on the Planning System of the Republic of Serbia. The results of the implementation of the Action Plan will be reported within 120 days after the end of each calendar year from the day of adoption. The annual reports on the implementation of the new Action Plan will continue, as before, with the aim of enabling an overview of everything that was done, what was not done and why, therefore – how far the implementation of each activity has come and to what extent implementation of existing activities contributed to the implementation of the planned measures, and thus – to what extent did it contribute to the implementation of the special and general goals of the Strategy through the achievement of indicators at the level of special and general goals.

## **VII. Meaning of terms contained in the Action Plan**

The following acronyms are used in the Action Plan:

ATS - Agency for Traffic Safety

QA - Qualifications Agency

Batut - Institute for Public Health “Dr. Milan Jovanović Batut”

BRA - Business Registers Agency

GIZ - German International Cooperation Organisation

EU - European Union

EC - European Commission

EUROSTAT - EU Statistics Office

ESC - European Solidarity Initiative

LoY - Law on Youth

IOM - International Organisation for Migration

UR - Unique records of youth associations, youth associations and their associations

LSGU - Local self-government unit

YO - Youth office

OITeG - Office of Information Technologies and e-Government

ODENQF - Office for Dual Education and National Qualifications Framework

KOMS - National Youth Council of Serbia

CBGE - Coordinating Body for Gender Equality  
MFCD - Ministry of Family Care and Demography  
MCTI - Ministry of Construction, Transport and Infrastructure  
MPALSG - Ministry of Public Administration and Local Self-Government  
MEI - Ministry of European Integration  
MoH - Ministry of Health  
MEP - Ministry of Environmental Protection  
MoIT - Ministry of Information and Telecommunications  
MoC - Ministry of Culture  
MoHMRSD - Ministry of Human and Minority Rights and Social Dialogue  
MSTDI - Ministry of Science, Technological Development and Innovation  
MoS - Ministry of Sports  
MAFWM - Ministry of Agriculture, Forestry and Water Management  
MoJ - Ministry of Justice  
MoE - Ministry of Education  
MEcon - Ministry of Economy  
MoLEVSA - Ministry of Labour, Employment, Veteran and Social Affairs  
MBRR - Ministry for Balanced Regional Development  
MoS – Ministry of Sports  
MRC - Ministry of Rural Care  
MFA - Ministry of Foreign Affairs  
MDFT - Ministry of Domestic and Foreign Trade  
MoF - Ministry of Finance  
MoTY - Ministry of Tourism and Youth  
MoI - Ministry of Interior  
NAPA - National Academy for Public Administration  
NAoYO - National Association of Youth Offices  
NAPOR - National Association of Youth Work Practitioners  
NES - National Employment Service  
NYS - National Youth Strategy for the period from 2015 to 2025  
OECD - Organisation for Economic Cooperation and Development  
OPENS - Youth Association of the Association “Novi Sad Youth Capital of Europe - OPENS”  
CSOs - civil society organisations  
SWG - Special working group for the preparation of the Strategy Proposal  
PSSY - Provincial Secretariat for Sports and Youth  
RAS - Development Agency of Serbia  
ROYC - Regional Office for Youth Cooperation

SORS - Statistical Office of the Republic of Serbia

RS - Republic of Serbia

PPS – Public Policy Secretariat

SDC - Swiss Agency for Development and Cooperation

CoE - Council of Europe

SIPRU - Team for Social Inclusion and Poverty Reduction of the Government of the Republic of Serbia

SCTM - Standing Conference of Towns and Municipalities

SCONUS - Student Conference of the University of Serbia

YPA - Youth policy actors

Strategy - Youth Strategy in the Republic of Serbia for the period from 2023 to 2030

UNICEF - United Nations Children’s Fund

UNFPA - United Nations Population Fund

SDG - Sustainable Development Goals

Acronyms and abbreviations for programme budget labels are:

- PG - Budget programme
- PA - Programme activity
- Ec. classif. - Economic classification
- 01 - General revenue and budget proceeds
- 06 - Donations from international organisations
- 11 - Income from foreign borrowing
- 56 - EU financial aid
- CSR EU - Donor aid of the EU.

The measures in the Action Plan are divided into:

- Regulatory (R)
- Incentives (In)
- Informative and educational (IE)
- Institutional-management-organisational measures (IMO)
- Measures of provision of goods and provision of services (PGS).

## 8. ACTIVITIES TO IMPLEMENT YOUTH STRATEGY OF THE RS IN THE PERIOD FROM 2023 TO 2025 ACCORDING TO SPECIAL OBJECTIVES

Action plan:	<b>ACTION PLAN FOR IMPLEMENTATION OF THE YOUTH STRATEGY IN THE REPUBLIC OF SERBIA FOR THE PERIOD FROM 2023 TO 2025</b>
Proposed by:	Ministry of Tourism and Youth
Coordination and reporting:	Ministry of Tourism and Youth

General objective: Improved quality of life of young people						
Institution responsible for monitoring and control of implementation: Ministry of Tourism and Youth						
Indicator(s) at the level of the goal (outcome indicator)	Unit of measurement	Source of check	Baseline value	Baseline year	Target value in the last year of AP – 2025	Last year of AP validity
At-risk-of-poverty rate or social exclusion of young people (by gender)	%	Eurostat database	33.66 (M 31.8, F 35.4)	2019	27 (M 26, F 19)	2025

						2023	2024	2025
1.6.1.1. Coordinate the process of harmonising and harmonising the youth work system with international practices, including meetings of the Expert Team for the implementation of the Bonn Process in the Republic of Serbia MTO MEI, RKSM, National Youth Council, CSO 2025 (fourth quarter)	MoTY	MEI, ROYC, National Youth Council, CSOs	2025 (fourth quarter)	01	Programme 1302 PA 0004	0	0	1,000
1.6.2.1. Organise and participate in international	MoTY	MFA, MEI, Tempus	2025 (fourth quarter)	01	Programme 1302 PA 0004	1,000	1,000	1,000

<sup>12</sup> EU Youth Strategy and Bonn Process.

<sup>13</sup> MoYS data.

events on the promotion and recognition of youth work, as well as the exchange of international practices		Foundation, ROYC						
1.6.2.2. Provide financial support to projects and programmes of associations that promote improvement, recognition and harmonisation of youth work with international practices	MoTY	MEI, Tempus Foundation, ROYC, CSOs	2025 (fourth quarter)	01	Programme 1302 PA 0004	1,000		

<b>Specific objective 2: Spatial capacities and services for the implementation of youth policy have been improved and functional in all LSGUs</b>							
Institution responsible for coordination and reporting: Ministry of Tourism and Youth							
Indicator(s) at the level of the specific objective ( <i>outcome indicator</i> )	Unit of measurement	Source of check	Baseline value	Baseline year	Target value in the year (2023)	Target value in the year (2024)	Target value in the last year of AP (2025)
The number of publicly owned facilities used by young people and associations of young people and for young people, in which activities for young people are continuously carried out.	Number	LSGU Annual Report	No data	2022	74	80	90
Established standards for youth facilities	No/Yes	Adopted and published standards (on the MoTY website)	No	2022	No	No	Yes
The share of the total number of young people who used services in youth-owned youth facilities on an annual basis (by gender)	%	Research on the position and needs of young people of the MoTY and LSGUs' reports	No data	2022	10	12	15

<b>Measure 2.1: Youth spaces are established and function in accordance with defined standards;</b>	
Institution responsible for implementation: Ministry of Tourism and Youth	
Implementation period: 2023-2030	Type of measure: regulatory, institutional-managerial-organisational

Regulations that need to be amended/adopted for the implementation of the measure: Regulations that need to be amended/adopted for the implementation of the measure:							
Indicator(s) at the level of the measure ( <i>output indicator</i> )	Unit of measurement	Source of check	Baseline value	Baseline year	Target value in the year (2023)	Target value in the year (2024)	Target value in the last year of AP (2025)
2.1.1. The number of young people and representatives of the civil and public sector involved in the consultation process for the development of standards for youth spaces	Number	MoTY Annual Report	No data	2022	150 young people and 60 representatives of the civil and public sector	200 young people and 80 representatives of the civil and public sector	250 young people and 100 representatives of the civil and public sector
2.1.2. The share of LSGUs that have formed a youth space that meets the adopted standards <sup>14</sup>	%	LSGU Annual Report	No data	2022	0	0	0
2.1.3. Established standards of digital youth spaces (digital platforms – hubs)	No/Yes	Annual reports of the OITeG, MoTY	No	2022	No	No	Yes
2.1.4. One of the indicators within this measure is the number of digital youth spaces (digital platform-hubs) in accordance with established standards. <sup>15</sup>	Number	LSGU Annual Report	No data	2022	0	0	0
2.1.5. The percentage of LSGUs that have youth spaces where support is provided for young people with disabilities and from vulnerable groups in the form of a personal assistant, sign language and Braille interpreter.	%	LSGU Annual Report, PwD association	No data	2022	5	10	15
2.1.6. The percentage of youth and youth associations and for youth, users of youth spaces, who participate in the creation of	%	LSGU Annual Report	No data	2022	15	20	25

<sup>14</sup> The indicator cannot be achieved in the period from 2023 to 2025 because it depends on the adoption of the standard (indicator 2.1.3), which is expected to be adopted by 2026.

<sup>15</sup> As this indicator depends on indicator 2.1.3, which is expected to be implemented by 2026, during the validity of this Action Plan (2023-2025) it is not possible to work on the implementation of this indicator.

programmes within youth spaces in LSGUs
